 - **Pay in July 2009**
- Call ProTraxx Today!**

the right data

Up-to-date Employee Certification data automatically downloaded, monthly, to the **EzTraxx Online** professional development management solution

Valid Issue & Expiration Dates posted to the MyEzTraxx Summary page and EzProfile module

Teaching Under Indicators identify staff's current endorsement supporting their active position

Current Certification Type & Endorsement Codes drive CEU requirements for each educator to assist in recertification planning

All data obtained directly from the **Connecticut State Department of Education's** new online Certification System.

EzCertification Data Exchange creates an entirely "green" process, replacing the existing paper-based, resource-intensive, system for educational institutions using **ProTraxx's solutions.**

EzCertification Data Exchange also enables the Connecticut State Department of Education to perform paperless audits—further streamlining the process for schools, RESCs, non-district providers and certified staff using the EzTraxx Online professional development management system.

the right source

the right service

ProTraxx has designed, developed and delivered quality products and services to Connecticut CEU coordinators for 10 years—helping school districts, RESCs, & other providers organize and optimize their professional development resources for improved learning.

EzCertification Data Exchange provides the right data, from the right source, powered by ProTraxx's proven track record for consistently delivering the right service. Over 1,000 schools and more than 30,000 educators use EzTraxx Online to manage their CEU records. Shouldn't you?

Why choose EzCertification Data Exchange?

Because you can't make the best decisions without the best data—and the best data comes from the record of authority. In Connecticut, the record of authority for Educator Certification data is the State Department of Education. That's why ProTraxx is working directly with the State to populate our EzTraxx Online application with data from the source - providing our clients with the most accurate, up-to-date information available for managing staff certifications and organizing professional development for improved learning.

As an added benefit, the certification data collected and submitted at the district/provider level is available to the Connecticut State Department of Education to perform paperless audits—further enhancing our "Green CEU" initiative which is reducing the cost of professional development for educators throughout Connecticut.
